MEHR CHAND POLYTECHNIC COLLEGE

2018-2020

EXPERTISE

HTML 5

CSS/LESS/SCSS

Bootstrap/Tailwind

Javascript/ JQuery

Typescript

Reactjs/ Nextjs

Nodejs(basics)

Experience

07-04-2020 - 28-04-2021

The Knowledge Academy

Web Developer

At this company, I turned XD designs into HTML, styled with CSS and LESS. I used JavaScript and JQuery to add interactive features and worked closely with the backend team for smooth integration.

24-05-2021 - 30-08-2023

Codenomad, Mohali

Frontend Developer

I became a Frontend Developer specializing in React.js, turning mockups into HTML and building React components. I also integrated backend APIs to keep everything running smoothly.

11-09-2023 - 05-04-2024

Expinator Technologies, Mohali

Frontend Developer

As the Team Leader for the Web Design Department, I handle client communications, keep them updated on project progress, and assign tasks to team members based on client needs. I also work as a Frontend Developer, focusing on building and improving websites using React and Next.js.

01-08-2024 - 08-07-2025

RocketPOS, Noida

Frontend Developer

My role here is pretty much the same as before. The main change here is that this is a Product-based company and being one of the initial hiring of this company, my job here is to manage the Frontend team and to redesign the company's Dashboard and Super admin Panel.

11-07-2025 - 11-07-2026

Ryutech, Jalandhar

Frontend Developer

I was hired as a Senior Frontend Developer, responsible for managing the frontend team and working directly with clients to understand requirements and deliver scalable, high-quality user interfaces.
